Sometimes, we all need a reminder of why we are here.....

"When will the Legion be just something that our grandkids read about in history books? The mission of the Legion includes serving our communities and fellow veterans. People have joined the Legion to belong to a mission with fellow veterans. During the past few decades Legion membership has drastically declined and continues to do so. WHY? Way too many possible answers for a Facebook post, but part of that answer is the people who join for the perceived "power and authority" and the almighty hat and title. These individuals become self-serving destructive forces within their post, district, Departments. They repulse others who join the organization looking for the unique fellowship with other veterans. The truth is the Legion is a VOLUNTEER organization and there is NO RANK. There are veterans and families out there who are dealing with terminal health conditions, divorce, addiction, depression, and contemplating what day they will end it all. If your focus is the hat and title, you are part of the problem. In the next few years, there will be no one for you to "lead". Sad.
